

UNIVERSAL BRAILLE SIGNS

A member of  Australian Sign & Graphics Association

a division of  Metalplaque Pty Ltd

Braille tactile signs shown below are just a small sample from our full range.

STAINLESS STEEL (316)

ADA PLASTIC

BLUE/WHITE BLACK/WHITE GREY/BLACK & CUSTOM

Universal Braille Signs provides signs for sighted and vision impaired users. Interpretive signage with raised lettering and graphics provide all the relevant information as required by the Building Code of Australia (D3.6) and fulfils the requirements of the Australian Standards AS1428.1-(2009-2010 Amdt 1).

All the elements you need for way finding can be supplied by Universal Braille Signs to give you the perfect level of accessibility and compliance for interior and exterior location signs.

Stay up to date with the latest news in braille and tactile signs.
